PROFESSIONAL PROFILE

Business Administration graduate with Full Stack development training and experience in operations, logistics, customer service, and digital brand management. Focused on applied AI, agents, automation, and practical software solutions. Led the AI-assisted evolution of a bilingual portfolio with Codex, defining requirements, reviewing implementations, and validating results.

CORE SKILLS

Applied AI: prompt design, Codex-assisted development, implementation review, AI response evaluation exercises, and workflow design.

Development: React, JavaScript, TypeScript, Next.js, Node.js, Express, REST APIs, PostgreSQL, Supabase, Git/GitHub.

Business: digital operations, inventory, logistics, sales, customer communication, and brand management.

SELECTED PROJECTS

- Professional Portfolio 2026: Next.js/TypeScript website with bilingual content, product direction, AI-assisted code reviews, and technical testing.
- KenzieHub: React dashboard with guest mode, Supabase authentication, and PostgreSQL-backed user technology data.
- CRUD Admin: TypeScript REST API with JWT authentication, permissions, PostgreSQL, and integration tests.

PROFESSIONAL EXPERIENCE

DÉA Sabores e Congelados | Digital Brand & Operations | Sep 2026 - Present
- Built digital presence, Instagram and WhatsApp Business materials, customer communication, and order workflows.
